#### **BOOK**

**T Barry**, J Deutsch, E Katsevich. "Hands-on single-cell CRISPR screen analysis." e-book. Link

### **GRANT ACTIVITY**

#### Submitted

Name	Agency	Mechanism	Role	Requested funds	Dates
"Statistical advances in CRISPR	NIH	K99/R00	PI	\$1,015,000	4/01/2026 -
profiling and screening"					3/30/2031

(Due to the Trump Administration's embargo on new grants to Harvard, I will resubmit this grant from Boston Children's Hospital in the October 2025 cycle.)

#### **SOFTWARE PACKAGES**

- sceptre: statistically rigorous and massively scalable single-cell CRISPR screen analysis. Link.

  (sceptre is the first package for single-cell CRISPR screen analysis endorsed by 10x Genomics, the main commercial supplier of single-cell experimental kits.)
- ondisc: out-of-core and cluster-scale computing on single-cell data. Link.

#### PROFESSIONAL SERVICE

- Reviewer, Annals of Applied Statistics, Biometrika, Frontiers in Genetics, Nature Biotechnology
- Judge, NESS student paper competition (2024), ENAR student poster competition (2025)

## **MENTORING**

• Songcheng Dai (Computational Biology Masters student at CMU). Topic: algorithms, data structures, and software for large-scale single-cell data.

#### **TALKS**

• "The permuted score test for robust differential expression analysis." ASA Con-	2025
ference on Statistics in Genomics and Genetics. Minneapolis, MN. Contributed.
